Marco Aurelio Cardoso

IT Professional | DevOps Enthusiast | Passionate about Software Development | Gamer in free time
Vitória, Espírito Santo, Brazil

Summary

Information Technology professional with over a decade of experience at UFES - Federal University of Espírito Santo. Possessing comprehensive expertise across various IT domains, including infrastructure management, DevOps practices, and back-end software development. Proficient in system management, automated testing, and containerization.

My career highlights include a solid background in Linux environments and active involvement in projects leveraging key technologies such as Kubernetes, SQL, Laravel, and Python. Continuously expanding knowledge and skills in these areas.

Certified in Kubernetes, Git, and DevOps tools, I'm recognized for my analytical approach, pursuit of excellence, and customer-focused orientation. Consistently seeking to apply my expertise and contribute to dynamic, results-driven work environments.
